PREFACE

I TAKE pleasure in offering for sale this well known Numismatic Collection, gathered by Mr. Sylvester S. Crosby of Boston, as it will supply many of my friends with additions to their cabinets; at the same time it is to be regretted that such a collection of rare and choice pieces should be separated, but I have no doubt they will be carefully preserved, and in passing from one collection to another they serve a double purpose, of gratification to the possessor as well as affording a wider extent of inspection. Be careful of the Unique pieces ye collectors, for you will be held to strict accountability by the Numismatists of the world should you carelessly suffer them to be lost. To call attention to any particular specimen is perhaps unnecessary, but it may be as well to note some of the most important as well as the unique pieces, such as No. 291, the 1792 Naked Bust Washington Cent; No. 292, the 1792 Washington Cent, of which only five are known; No. 295, the handsome Washington Half Dollar in copper, of 1792; No. 299, the Unique Washington Trial piece; No. 302, the 1795 Liberty and Security, only two known; No. 304, the Unique Liberty and Security; Nos. 312 to 316, Washington Season Medals; No. 317 to 327, rare varieties of the Washington Mortuary or Funeral Medals; Nos. 328 to 342, rare, early Washington Store Cards; No. 345, the Washington Fame Medal; No. 351, the Unique Washington Medal in silver, by Halliday; Nos. 752 to 756, the rare Lincoln Medals issued by the New York Numismatic Society; Nos. 844 and 845, the N. E. pieces; Nos. 846 to 850, the Mass. Willow tree pieces, and the many rare and fine Oak and Pine tree coins.

Nos. 948 to 952, the Granby or Higley Threepenees; No. 1165, the Unique New Jersey Washington Cent, one of the most important, interesting and valuable coins in the collection; No. 1226, the 1786 "Non Vi Virtute Vici"; Nos. 1227 and 1228, the New York Excelsior Cents; No. 1229, the Liber Natus Libertatem Defendo; No. 1233, the rare Nova Eborac, only three specimens known; Nos. 1262 to 1270, the Lord Baltimore pieces; Chalmers Annapolis coins and the Kentucky Myddleton pieces.

Nos. 1289 to 1292, the Unique Rosa Americana patterns, and the rare Rosa Americana coins; No. 1327, the Unique Rosa Americana; No. 1350, the silver Immune Columbia; Nos. 1362 and 1363, the rare Fugios, only three of each known, and No. 1365, which is probably unique; No. 1353, the Unique Confederatio, and No. 1425, the very beautiful United States Half Dollar of 1796.

The advanced Numismatist will here find many desirable coins, and the enthusiast will in all probability secure them, as I have no doubt but that they will be properly appreciated and realize good prices. I have endeavored to portray faithfully the condition of the coins, noting their defects, but at the same time endeavoring to do full justice to them. I am largely indebted to Mr. Crosby's work for information, and in some cases have used his language in my descriptions. The plates referred to will be found in that work "The Early Coins of America."

Leaving the matter now in the hands of my patrons,

I am, yours truly,

JOHN W. HASELTINE.

WILLOW TREE COINS.

[Mr. Crosby says of these interesting coins: "They are so rude in conception and bungling in execution that I have never met with a perfect specimen, all being doubly struck and most very faint impressions and much worn." The plates referred to and the numbers following the date are those in Mr. Crosby's work. The rarity, R to R6, the latter being the extreme rarity, is also taken from the same work.]

846 1652 No. 2*b*. Rev. C. Shilling. "SATH ETS: IIN." Roots curved to left and right. A very curious tree with large leaves. Rev., "NE NGLAN N DOM." Fine for the piece, but date faint. Very rare.

850 1652 Sixpence. One large leaf in top of tree points to right stand of M. Legend, "MA ATV SET IN." Rev. "EWE AND DOON." Mr. Crosby says he has met with but one variety, but this is not the one in Plate 1, No. 7. Fine for the piece. Excessively rare.

856 1652 No. 5. Rev. A. Shilling. Similar tree to No 4, but the trunk is narrower and of but two upright lines. No shrubs. Rev., date small. No punctuations in legend. Good, of the highest rarity. R 6.

857 1652 No. 6*a*. Rev. E1. Shilling. *Two* shrubs. The N in IN is only partly on the planchet, but sufficient to show that it is reversed. The 1 in date heavy. Good. Pierced at top. R 4.

859 1652 Shilling. Similar to No. 6*b*. Rev. E2, but it has many twisted roots, and reverse has small centre mark. N in IN reversed. Very good. Very rare. Probably a new discovery by Mr. Crosby since issuing his work.

860 1652 No. 7. Rev. B. Shilling. Tree covered with spines. Two shrubs. 4 roots to left. Heavy letters. N. reversed. Rev., no punctuation after AN. No centre mark. Very fine.

861 1652 No. 8. Rev. F. Shilling. Mr. Crosby says that of this he has seen but one specimen, and that, unfortunately, so much clipped that a full description of the die is impossible. Fair and pierced, but of the highest rarity.

869 1652 No. 2. Rev. B. Sixpence. Mr. Crosby says "this is a variety rarely found and *all* very poor specimens, its reverse is peculiar, the date being often mistaken for 1650 on account of the 2, which seems to have been first cut reversed then altered, thus resembling a cipher resting upon a line. The date is very high in the field." Although poor the date and denomination are very distinct and bold. Desirable. R5.

870 1652 No. 6. Rev. F. Sixpence. A group or rosette of 7 pellets after MASATHVSETS. The IN is omitted on obverse, it is, however, found on the reverse, and a rosette of 7 pellets after ANO. THIRD DAY'S SALE.

THE ROSA AMERICANA SERIES.

PATTERNS.

LETTER FROM MR. S. S. CROSBY.

I think that the following extract from Wood's patent proves that these pieces were intended as patterns for his coinage, and also that the Rosa Americanas, instead of being intended for Pence, Half-pence and Farthings, were authorized as Two-penny, Penny and Half-penny pieces, which valuation is shown upon the following four patterns.

"That the said halfe pence, pence and Two pences of such mixt metal or composiçon as aforesaid shall and may be made and Coyned with Engines or Instruments, having on the one side the Effigies or Portraiture with the name or Title of his Majestie his heires or Successors, and on the other side the ffigure of a Crown with the word America and the year of our lord and any other marks or Addiçons as may be proper or the said Engines or Instruments for Coyning the said half pence and Two pences may have any other Inscripçons as by any warrant or warrants to be obtained under the Royal Sign Manual of his Majestie, his heirs or Successors shall be allowed and approved."

S. S. CROSBY.

[Extracts from Early Coins.]

"In the style of their workmanship and in their composition these patterns strongly resemble the Rosa Americana Series. The head of the king as well as the legend upon the obverses of the larger pieces is nearly the same with that upon the corresponding Rosas, and the effigies bear so strong a resemblance to those of that series as to leave no room for doubt that they were the work of the same artist. In the metal of which they are composed may also be noticed a great similarity, three of these being of the brassy composition frequently found in those; the other mostly resembling copper, but with flecks of brass scattered through it, a peculiarity met with, so far as our observation extends, only in coins of the Rosa Americana Series." No other impression from the dies of these pieces is known in any metal, with the exception of No. 2, and that is in a composition resembling brass.

1363 1787 Obv. Thirteen rings linked regularly forming an endless chain. Legend, "UNITED * STATES *" on a small circular label around the centre, in which is WE ARE ONE. (The stars represented as punctuations in the legend are not stars, except in the following lot, but are groups or rosettes of five dots surrounding one in the centre.) Rev. same design as preceding, but differently punctuated. This is the extremely rare variety with "UNITED" above (instead of at the side) and "STATES" below. The punctuations or groups of dots being at the sides. Copper. Uncirculated. *Only three known.* See Plate VII, No. 4.

1364 1787 Similar to the preceding, but reads States United, but has an 8-pointed star after States and another after United. See Plate VII, No. 5. Good. Very rare.

1365 1787 Another reading "States United" (with Rev. C.), but the circular label upon which the legend is stamped is *not raised*, but is composed of 2 raised rings, the legend being between them, upon the same level as the field. Fine. Excessively rare. Not in Crosby. Perhaps *unique*.

[The following read "United States" and the legend ". MIND . YOUR . BUSINESS ." punctuated.]

1366 1787 Uncirculated. Partly bright.

1367 1787 Slight varieties. Fair to good. 8 pieces.

1368 1787 The same, but reverse C. The same as the reverse of the rare piece No. 1362, having no rosette before Fugio, and has the dash between MIND and YOUR. Good. Very rare variety.

1370 1787 The same as preceding. A variety. Fine.

1371 1787 The same. Very good.

[The following read STATES UNITED. The word States being on the left hand side of label, are probably slightly different and, as usual, rather weak impressions on obverse.]

1386 1776 Another. This has the N large in AMERICAN, and "N. HAMP'S" preceeds "MASSACHS" in the rings, thus differing from the preceding. On the reverse the sun is more nearly above the dial, and "E. CENTS.

[The number refers to Mr. E. Frossard's Monograph and in the 1794 cents also to Dr. Maris' Work on their varieties.]

1472 1793 The Ameri. Frossard No. 1. Rev. chain of 15 links. Legend, "United States of Ameri." Very good. Edge a trifle battered. Very rare

1473 1793 Chain, "America." F. No. 1. Rev. 2, a slight scratch on the hair, otherwise but little circulated. Fine bold impression. Very rare in this condition.

1474 1793 Chain "America." F. No. 2. Period after "Liberty" and date. Barely touched by circulation. Light olive color. A beautiful cent. Very desirable and extremely rare in this condition.

1475 1793 Chain, "America." F. No. 3. Rev. 2. "R" very high in the word "LIBERTY." No period after Liberty or date. Very good. Very rare.

1476 1793 Wreath. F. No. 4. LIBERTY in Large letters. The sprig under the head has broad leaves, nearly at right angles. Wide date. Rev. Legend large and near the milling. Dot between E and N of CENT. Bold, sharp impression. Barely circulated, although the surface oxidized and there is a small nick on reverse near A in America. Rare variety.

1477 1793 Wreath. F. No. 5. Small letters in legend. Broad leaves in the sprig, the centre one turning to right. Rev. the same as No. 4. Fine impression. Evenly oxidized. Rare.

1478 1793 Wreath. F. No. 7. First reverse. Bold, strong impression. Barely circulated. Light brown color. Very rare and desirable in this condition.

1479 1793 Wreath. F. No. 7. Second reverse, the slightest possible marks of circulation. Beautiful light olive color. A light blow upon the extreme edge has made a slight elevation, but not marring the beauty of the piece. Extremely rare in this condition.

1480 1793 Wreath. The same as preceding but *plain* edge. No trace of the vine and bars ever having been struck upon it. Barely fair. Extremely rare.

1481 1793 Wreath. F. No. 8. Evenly and boldly struck. Barely touched by circulation on the most prominent parts of the hair. Light brown color. Evenly oxidized. Very rare and desirable.

1482 1793 Wreath. F. No. 9. Edge lettered "ONE HUNDRED FOR A DOLLAR." All three leaves in the sprig incline to the right. Evenly struck, smooth surface, light brown color, and one of the finest specimens of this variety I have ever seen. Of the highest rarity in this condition.

1483 1793 Wreath. The same as preceding. Very fair but date weak.

1484 1793 Wreath, The same as preceding two. F. No. 9. But edge instead of being lettered has the vine and bars. Bold, strong impression. Very fine. Extremely rare.

1485 1793 Wreath. Obverse not in Frossard's Monograph. The sprig has 3 broad leaves, the centre one upright and turning slightly to the left at the tip. Rev. same as No. 4. Poor but extremely rare, if not unique.

1486 1793 Liberty Cap. F. No. 11. First reverse. Very good, strong impression. Nearly fine. The surface is somewhat smoother than usual, and it is very difficult to obtain a finer cent of this variety. Very rare.

1487 1793 Liberty Cap. The same as preceding. Rather smoother surface but not quite so fine as the preceding, but is very good and desirable. Very rare.

1488 1793 Liberty Cap. F. No. 11. Second reverse, a very handsome smooth surface. Light brown color. Very fine. Evenly struck. Extremely rare in this condition.

1489 1793 Liberty Cap. F. No. 12. Cracked die. First reverse, bolder impression than usual. Although evenly oxidized, as they all are, it is of a rather lighter color and in very fine condition. Very desirable and very rare.

1490 1793 Liberty Cap. F. No. 13. Second reverse, a very slight crack in the die just visible through Y in LIBERTY. About good condition, but centre of reverse indistinct. Extremely rare variety.

1491 1794 F. No. 2. Second reverse, and Maris No. 2. Double chin, but a combination not mentioned by Dr. Maris. Very good. Dark. Rare.

1492 1794 F. No. 5. Third reverse, M. No. 9. Crooked 7. Very fine. Dark brown color.

1493 1794 F. No. 8. M. No. 12. Scarred head. Almost strictly uncirculated. A sharp, bold impression. Has a few small spots of oxidization. Dark brown color. Very desirable.

1494 1794 F. No. 11. First reverse. M. No. 17. The Ornate. Very fine. Rev. a little weak. Light olive color.

1495 1794 F. No. 19. M. No. 32 Shielded hair. Barely touched by circulation. Light brown color. Desirable.

1496 1794 F. No. 20. M. No. 37. The Plicæ. Fine. Light brown.

1497 1795 Thick planchet, lettered edge. F. No. 1. Uncirculated. Bold impression. Beautiful light olive color, showing traces of original color. On reverse the planchet shows that the metal had minute cracks in a portion of it before striking, which slightly detracts from its being perfect. It is, without doubt, one of, if not the finest, cent of this variety known. Extremely rare and very valuable in this condition.

1498 1795 Thick planchet, lettered edge. *Not in* Frossard's Monograph. The 5 in date *does not* touch the bust. The extreme end of the lower curl is very close to, and turns around the 1 in date. Rev. same as preceding. I have never met with this variety before, nor can I find it mentioned. If not unique, it certainly is extremely rare. Very good. Light color.

1499 1795 Thin planchet. F. No. 2. "One cent" in centre of wreath. Fine.

1500 1795 Thin planchet. F. No. 3. Rev. "One cent" high in wreath. Very good. Nearly fine.

1501 1795 Jefferson head. A very good specimen of this very rare variety, but the usual vandal has been at work on it scratching the border all around with some sharp instrument. It is, however, so excessively rare that it is desirable in far worse condition than this.

1502 1796 Liberty Cap F. No. 2. Very good. Dark.

1503 1796 Liberty Cap. Not described by Frossard. L of Liberty barely escapes touching the cap. The 6 not very close to bust. Rev. leaf not close to F in OF. Good.

1504 1796 Fillet head or draped bust. F. No. 4. Fine.

1505 1797 Close date. A bold, sharp, evenly struck impression. The milling even around the border, on obverse and reverse. Uncirculated. Beautiful brilliant light color, with a glow of original brightness. A *perfect* cent. Very rare in this condition.

1506 1797 Wide date, indented edge. Rev. very small $\frac{1}{100}$. Fair.

1507 1797 Wide date. Rev. 9 berries in wreath. Good.

1508 1797 Close date. Rev. 12 berries in wreath. Very fair.

1512 1798 Medium wide date. Fine.

1513 1798 Closer date. Very fine.

1514 1798 9 low in date. Good. Cleaned.

1515 1798 Varieties. Good. 3 pieces.

1516 1799 over 1798. Well struck. All plain and distinct except the word OF on reverse. Nearly all the lines of the hair show. Date well up on the planchet, the bottoms of the 9s distinct. A good specimen of this variety. Very rare.

1517 1799 Perfect date. Well struck. All of the date and word Liberty entirely on the planchet. The bottoms of the 9's well defined. All the lines of the hair and drapery distinct. The reverse unusually fine, not a part being faint, but all bold and prominent. Desirable for any cabinet. Very rare.

1518 1800 over 1799, the 7 showing distinctly under the 8, and the 9 in the 0. Bold impression. Obv. good. Rev. fine.

1519 1800 Perfect date. Good.

1520 1801 $\frac{1}{000}$. Strong impression. Very fair.

1521 1802 Die cracked in upper right field, one line extending from the edge to the nose of Liberty, another through the lock of hair over her forehead, up through R to the edge. Rev. only 9 berries in wreath, 5 on left and 4 on right. Barely circulated. Beautiful light olive color. Rare.

1522 1802 Reverse has no stems to wreath. Fine. Light brown. Slightly oxidized.

1523 1802 Close date. On reverse the stem points to right stand of A. Very fine. Edge a trifle bruised. Light brown.

1524 1802 Wide date. On reverse the stem points to left stand of A. Barely circulated. Light brown.

1525 1802 Wide date. Reverse same as preceding. No mint mark or dot over N in cent. Barely circulated. Beautiful light olive color.

1526 1802 Closer date. Rev. OF and AMERICA farther apart than in any of the preceding. The line of the fraction very long, just barely escapes touching the ribbons on either side. Die cracked on upper left edge. Barely circulated. Beautiful light olive.

1527 1802 Date medium width. Figure 1 touches the hair. Rev. OF and AMERICA very far apart, farther than in the preceding, and the OF is also farther from STATES. A slight crack in the die, lengthens the line of the fraction on the left. Very fine. Rare variety. Has a spot of corrosion on reverse over NE.

1528 1803 Wide date. 3 touches the bust. Rev. the line of the fraction long. Stems long, the left one points to left stand of A. $\frac{1}{100}$ small. Barely circulated. Brown color.

1529 1803 The same variety. Beautiful light brown color. As fine as the preceding, but has 3 pin marks in field on obverse.

1530 1803 Wide date, the 3 not touching the bust. Rev. stems very short. Line of the fraction very short, small $\frac{1}{100}$. Very fine. Dark olive.

1531 1803 Close date. Rev. large $\frac{1}{100}$. Line of fraction very short. One stem points to right stand of A. Fine.

1532 1803 *Very* wide date, wider than any of the preceding. Rev. large $\frac{1}{100}$. Line of fraction very long. Stem points to the left stand of A. Rare variety. Fair.

1533 1804 The variety with the die broken on the edge. Sharp, bold impression. Slightest trace of circulation the hair only a trifle touched over the forehead. Light brown color. A very beautiful cent. Extremely rare and valuable in this condition.

1534 1804 Perfect die. Well struck. Showing nearly all the lines of the hair. Very good. Light olive. Very rare.

1535 1804 Restrike. Uncirculated. Bright.

1536 1805 Bold, even impression. Barely circulated. Light olive color, with a shade of smooth red oxidization. Very rare in this condition.

1537 1806 Very fine; strong impression. Only a little circulated. Light brown color. Rare and desirable

1538 1806 Not much inferior to the preceding. Very fine. Rare.

1539 1807 over 1806. Close tall figures in date. Good. Dark.

1541 1807 Large and small $\frac{1}{100}$. Very fair. 2 pieces.

1542 1808 Good. Getting very scarce.

1543 1809 *Strong sharp, bold*, impression, the stars sharper than on any cent of this date I have ever seen. Strictly uncirculated. Beautiful olive color, with lingering traces of original color. The handsomest cent of this date ever offered for sale. Extremely rare. It is simply perfect.

1544 1810 Perfect date. Very fine. But little circulated. Very rare in this condition.

1545 1811 Perfect date. Very good or fine for date. Scarce.

1546 1812 Large date. Slightest trace of circulation. Sharp impression. Beautiful light olive color. Around the edge it is somewhat uneven, owing, probably, to the planchet being too large for the collar when being struck.

1547 1812 Small wide date. Well centered. Very fine. Dark olive.

1548 1813 Very good. Light brown color.

1549 1813 A cent that would be worth $50 if that vandal had not been around. A nice hole jammed through it over the head of Liberty. *Otherwise* a sharp, strictly uncirculated cent. The original red color changing to a beautiful light olive.

1550 1814 Plain 4. A very bold, unusually strong impression. Barely circulated. Dark brown. Rare.

1551 1814 Crossed 4. Sharp, bold impression; slightly rubbed on the prominent leaves in wreath, otherwise uncirculated. Light olive, with traces of original color. Very rare.

1552 1816 Perfect die. Uncirculated, bright. Just commencing to change to a light olive. Evenly struck, sharp impression. Very rare in this condition.

50 1555 1817 Closer date. Barely touched by circulation. Beautiful light olive.

50 1556 1817 Lock of hair (sometimes called a curl, but is really a small break in the die) on top of head. Barely circulated. Light olive. Rare.
